SUMMARY

Ambitious data scientist & team player who solves problems creatively with statistics & data, to create direct business value.

EDUCATION & LEADERSHIP

Northeastern University – Boston, MA

Graduating Dec 2027

Bachelor of Science Candidate in Data Science & Business Administration

Finance Concentration & Minor in Interdisciplinary AI

Relevant Coursework: Applied Machine Learning, Large-Scale Information Storage/Retrieval, Creating Business Value with AI

Leadership: Graduate Teaching Assistant (Northeastern University), Head Debate Instructor (Yiyang International Education), Personal Trainer (Freelance), Assistant Debate Instructor (New England Academy)

WORK EXPERIENCE

Introductory AI & Machine Learning Instructor | Yiyang International Education – Walnut, CA

Jun 2025 - Aug 2026

- Distilled machine learning concepts (regression, classification, neural networks) into easy, natural intuitions for 4th-6th graders.
- Connected each machine learning technique to recognizable products & services through mini-projects/application-demos: regression to GPS ETA estimation, & classification to cancer diagnosis, convolutional neural networks to face recognition, etc.
- Weaved bonus content on broader topics: the AI supply chain, applied AI tips & tricks, & basics transformers architecture.

Data Analyst Co-op | Wayfair – Boston, MA

Jan 2026 - Jun 2026

- Engineered & deployed logistic regression model to reliably predict conversion rate, using early ad-lifecycle metrics, allowing for earlier budget decisions, saving ~\$625 per ad (~\$65k a year).
- Explained machine learning concepts & design decisions to non-ML stakeholders, relevant to CVR prediction model.
- Integrated a Cursor agent with Google & Slack MCPs to automate ad-pause process, **eliminating ~\$300 leakage** per week.
- Centralized main Performance Tracker dashboard (**GBQ & Apps Script** → **Google Sheets & Looker**), for weekly reporting purposes, revamped with detailed, versatile filters: funnel, customer segment, device, ad format, etc.
- Spearheaded an **A/B test**, which optimized BAU keyword audience targeting, increasing ROAS **1.6x** via **46%** CPM decrease.

Teaching Assistant | Northeastern University – Boston, MA

Jan 2024 - Jun 2026

- Provide detailed, actionable feedback for 30+ students, supporting students through semester-long research projects.
- Translate data & economic concepts intuitively for students of both technical and non-technical backgrounds.
- Learn domains quickly, through immersing into six different, 20+ paged research papers per semester.

Data Consultant Intern | Techsalerator – Remote

Nov 2025 - Feb 2026

- Prospected 300+ leads weekly to connect businesses and consumers to datasets fitting their problems across domains.
- Evaluated outreach metrics to redirect efforts toward highest-yield channels, similar to analyzing cohort patterns.
- Carried curiosity into interactions w/ leads & stakeholders, matching suitable datasets to their needs, wants, & goals.

PERSONAL PROJECTS

Client-Tailored Equity Portfolio

Portfolio Construction | Fundamental Analysis | Risk Modeling

- Interviewed the client to thoroughly define unique risk tolerance, time horizon, constraints, understanding full financial picture.
- Deployed a portfolio analysis web app (Next.js/Vercel) with stock selection tailored for client's individual circumstances.
- Justified why each metric in multi-factor criteria mattered to client, landing on: ROIC, FCF/share CAGR, margin stability.
- Backtested versus S&P 500 and stress-tested 2020/2022 drawdowns, achieving 1.11 Sharpe and -33% max drawdown.

TECHNICAL SKILLS & INTERESTS

Quantitative & Statistical Methods: Time-series Analysis, Backtesting, Statistical Arbitrage, Risk Modeling, Portfolio Optimization

Programming: Python (pandas, numpy, statsmodels, scipy, scikit-learn), SQL (PostgreSQL, CTEs, Window Functions), R

Visualization & Big Data Processing: Looker, Google Big Query, Tableau, ETL, Docker, Advanced Microsoft & Google Suites

Platforms & AI: Google Cloud Platform, LLMs, MCPs, Cursor, AI Prompting & Ethics, Google Ads

Interests: Boxing, Sim-Racing, Cooking, Chess, Portrait Sketching
